EVOLENCE® is indicated for the correction of moderate-to-deep facial wrinkles and folds, such as nasolabial folds. EVOLENCE® should be injected into the mid-to-deep dermis. Possible side effects of EVOLENCE® are usually injection-site related and include mild swelling, redness, and pain. Other rare side effects include the development of small areas of firmness under the skin at the treated sites that may be noticed when the areas are pressed upon. For more information, please contact us at 1.800.EVOLENCE (1.800.386.5362).
